

OES

Implementation of the Long-term Sustainability (LTS) Guidelines

Ryan Guglietta – U.S. Department of State: Office of Space Affairs

Office of Space Affairs

- Space Exploration and Resource Utilization
- Space Science
- Responsible Behavior and Long-term Sustainability
- Space Environment (Space Weather)
- Earth Observation
- Global Navigation Satellite Systems (GNSS)
- Satellite-based Search and Rescue

Long-term Sustainability Guidelines

- A. Policy and regulatory framework for space activities
- B. Safety of space operations
- C. Promote and support capacity-building
- D. Scientific and technical research and development

Guideline A5: Enhance the practice of registering space objects

PRESIDENTIAL MEMORANDA

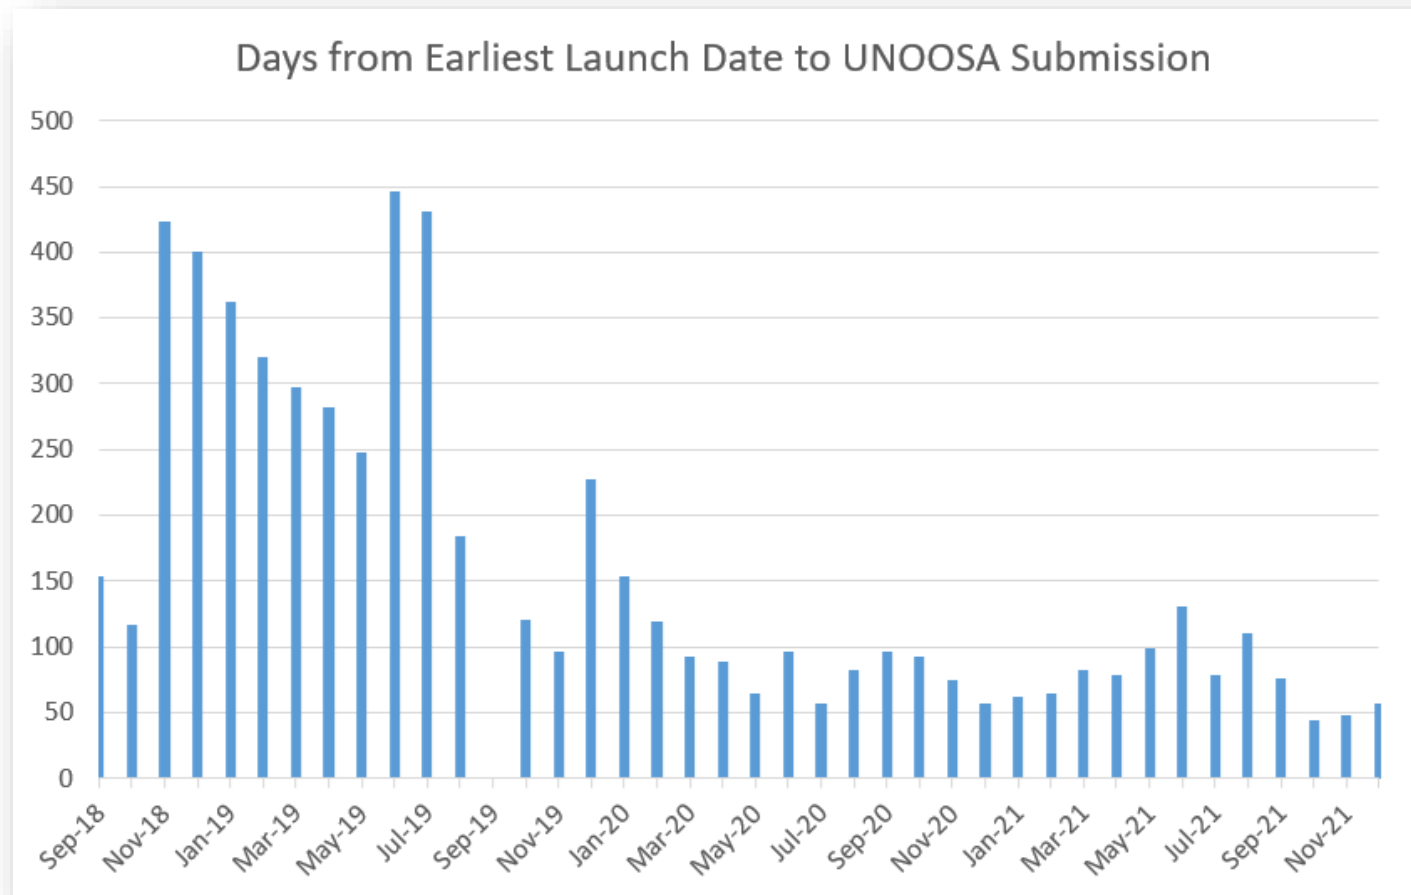

Space Policy Directive-3, National Space Traffic Management Policy

INFRASTRUCTURE & TECHNOLOGY | Issued on: June 18, 2018

- **Goal 8:** Improve the U.S. domestic space object registry. Transparency and data sharing are essential to safe, stable, and sustainable space operations. Consistent with national security constraints, the United States should streamline the interagency process to ensure accurate and timely registration submissions to the United Nations (UN), in accordance with our international obligations under the Convention on Registration of Objects Launched into Outer Space.

U.S. Progress on Registration Filing Submissions
